

Science and Math Teacher: Grade 6th

- [Lincoln Preparatory Academy](#) 2250 S. Gilbert Rd. in Chandler, Arizona
- Lincoln Prep is a 2nd year Great Hearts academy, on a beautiful campus (equipped with lab classrooms) and more importantly, a fantastic faculty – of both new and long-time veteran Great Hearts teachers
- This full-time position includes two sections of 6th grade mathematics (Pre-Algebra) and two sections of 6th grade science (Life Science), with the same two sections of students.
- Science and mathematics are essential elements of the core curriculum at all Great Hearts academies, and are studied at each grade level.
 - Mathematics 6th-12th grade includes Pre-Algebra through Algebra II, Euclidean Geometry, Calculus, and Advanced Calculus
 - Sciences 6th-12th grade includes Life Science, Earth Science, Physical Science, Physics (I and II), Chemistry
- Science courses at Great Hearts are content-rich with a focus on laboratory and field experience
- Great Hearts math courses use a Socratic approach to help students through proof-based problems
- Applicants will ideally have at least a BA in mathematics, sciences, and/or liberal arts, and solid teaching experience with positive reviews from supervisors/students. A teaching certificate is not required.

About Great Hearts Academies

Great Hearts academies are substantially outperforming other public and private schools, proving that tuition-free schools can do an exceptional job of educating students if they are smaller, more efficient, and set higher expectations for all students through a core, classical liberal arts curriculum. We gladly prepare our graduates for success in the best colleges and universities in the nation, but our main purpose is the formation of the soul, heart, and mind. We believe that the highest goal of education is to become good, intellectually and morally. Classes are run Socratically – teachers are expected to be guides as well as participants in the search for Truth, Goodness, and Beauty. The faculty of Great Hearts Academies is a true community of life-long learners who participate in seminars together, attend classical music concerts together, and hear lectures on art, philosophy, mathematics, and other topics in the liberal arts. Certification is not required. The majority of our faculty hold undergraduate or graduate degrees in the academic subjects they teach and/or undergraduate or graduate degrees from top liberal arts programs.

From our Philosophical Pillars:

“Thoughtful depth about a subject is preferable to broad or rapid coverage. Our goal is to shape minds and souls, not to cover material quickly.”

“Every high school student must experience the beauty and truth of calculus and a rigorous four-year study of laboratory science.” - Excerpts from [Great Hearts Philosophical Pillars](#)

To Apply

Candidates will apply using the online application, accessible via our [national careers website](#). The site allows applicants to submit materials (resume, reference letters, etc.) for review by Great Hearts staff and academy Headmasters. For more information, and to express interest, candidates may also contact the Recruiting Office at careers@greatheartsamerica.org.

In the immediate term, please send a quick note of interest to Kiann Mapes, VP of Faculty Talent, at kmapes@greatheartsamerica.org.
