Please briefly describe what experiences an intern in your district would receive: The Cottonwood-Oak Creek School District is a preschool through eighth grade district. Interns receive a wide variety of opportunities in the district and work closely with the lead school psychologist. Opportunities include completing psycho-educational evaluations and re-evaluations for students with both high-incidence and low-incidence disabilities; participating in Child Find screening activities; completing comprehensive developmental assessments for preschool and young school-age students; completing functional behavior assessments and developing behavior intervention plans; consulting with parents, teachers, and administrators; conducting manifestation determinations; participating in crisis and threat assessment planning and intervention; and facilitating group meetings.

Please describe how supervision is provided to interns in your district: At COCSD interns work closely with the lead school psychologist. Additionally, the school psychologists in the district meet regularly to consult and collaborate on cases. The intern will have the opportunity to be the lead at a school, if they so desire, and will also have the support of the lead school psychologist for all cases completed in the district. The level of supervision and support will be tailored to the needs of the individual intern and will be provided more directly at the beginning of internship, with more opportunity for independence as skill and confidence increases.

The intern will receive direct supervision from the lead school psychologist at a minimum of 2 hours for every 40 hours worked; however, the actual level of supervision and support often exceeds this requirement.

Will the supervisor(s) provide 2 hours of direct supervision for every 40 hours worked: Yes
How many hours do interns typically accumulate throughout the year: 1500

What other information should intern candidates know about your district or internship experience that is not listed here? COCSD has three traditional schools, a K-8 STEM school, and a K-8 International Baccalaureate school. Interns will be supported with the types of cases and experiences in which they are most interested. Interested candidates are encouraged to bring to the internship fair their curriculum vita, letters of recommendation, and an example of their report writing.

Are there at least two licensed doctoral psychologists on staff in the event that a doctoral candidate wishes to receive supervision consistent with a future pursuit of licensure: No
Do you require students to apply to the district ahead of time: No
If so please provide directions for students on where to apply (physical address/email address/website) and what portfolio materials to submit:
