HED 608 001  The College Student
Dr. Z Nicolazzo  Tuesday 7-9PM  EDU 337
History and characteristics of the college student; interactions with campus environmental influences; developmental and normative trends; major research findings.

HED 609 001  Organization and Administration in Higher Education
Dr. Gary Rhoades  Wednesdays 4:15-6:45PM  EDU 337
Organizational theory, structures, systems, and administrative procedures in varied higher education institutions; patterns of governance and policy development.

HED 612 001  Introduction to Multivariate Regression and Quantitative Program Evaluation
Dr. Karina Salazar  Thursdays 4:15-6:45PM  EDU 316
This is a second semester course in applied statistics with an emphasis on program evaluation. The prerequisite for this course is one previous course in statistics. The course will focus on regression with a continuous variable and multiple independent variables. Students will learn how to apply multivariate regression to observational (as opposed to experimental) data in order to evaluate the effect of an independent variable on an outcome of interest. Students will be assigned weekly homework and the capstone of the course will be a quantitative research paper on a topic chosen by the student.

HED 627 001  Capstone: Contemporary Issues in Student Affairs
Dr. Amanda Kraus  Monday 4:15PM-6:45PM  Highland Commons B116
This course is designed to serve as a capstone experience for master's students in the last semester of their program, entering the profession of student affairs. Students will explore contemporary and professional issues with a critical lens. Course readings and discussions will encourage students to raise questions about professional practice, issues and trends. Students will have the opportunity to examine an issue of interest and present their findings in a professional symposium. We will often dialogue with guest speakers to gain firsthand insight into the profession.

HED 628 001  Theories of Inequality, Oppression, and Social Stratification
Dr. Nolan Cabrera  Monday 4:15-6:45PM  Modern Language 210
Within this class, students will learn about the relevance of social theory to social science research, and then apply it to a specific research proposal of their choosing. They will do this by a) reading some seminal theorists in educational research who center some form of inequality in their analyses (e.g., Gramsci, Bourdieu, Freire, and Foucault); b) explore how contemporary scholars apply these theorists; and c) develop their own research interest strongly contextualized within a theoretical framework of their choosing. While the focus of the paper is theory, the application of that theory should be in an educational environment or surrounding an educational issue.

HED 630 001 Higher Education Values/Consciousness/Professional Practice

Dr. Jenny Lee Online but will meet three times during semester Hybrid

This seminar introduces readings on issues concerning values, consciousness, and mindfulness in education. The course seeks to bring awareness to how our values shape our everyday lives as students, teachers, and leaders in the education context.

***Meeting dates: Wednesdays, April 1, 8 & 15 from 7-9PM in EDU 312

HED 696C 001 Activism in Higher Education EDU 316

Dr. Z Nicolazzo Tuesdays 4:15-6:45

Since its inception, colleges and universities have been robust sites for student activism. Much of this activism has been led by students with marginalized identities seeking broader diversity, inclusion, and equity throughout their college experience. While college student activism has led to curricular and co-curricular change, there has been a recent focus on the various nodes of college student activism (e.g., Black Lives Matter, the Boycott, Divestment, and Sanctions movement, the labor movement), as well as its broader purposes and effects on and off campus. In this course, students will explore college student activism as an historical, social, cultural, and political phenomenon, as well as the potential for student activism to reimagine university life.
